

MESSAGE FOR UNITY AGAINST WAR

Something almost incredible has happened again...

In June 2023, Humanity has already received a „**Message from Extraterrestrials**“ from the star constellation of Orion. Their messenger **Thoth** had lived on Earth and he gave a wake-up call for humanity, describing the situation of our planet and that it would only be possible for a few more years to save the Earth and all life on it. And he also explained how this could be achieved...

And now, in November 2023, Humanity received another „**Message from spiritual Beings**“... This was **given by Gabriel** from a council for Humanity in higher realms.

It is also written in ancient scriptures that he will return before the Time of Turning.

This has now happened, because we received this important message from him... see Backsite

MESSAGE FOR UNITY AGAINST WAR

Beloved souls on Earth

I Gabriel Metathron speak now to you from the Council of the Elohim.

Unfortunately it goes on with the separations on earth cause of a growing war, which is to divide all mankind, according to the cruel plans of the **Dark Hierarchy**.

Following the reciprocal attacks in **Ukraine**, it has also provoked the attacks in **Palestine** to lead the Israeli Government into a war, which is to turn into the announced **3rd World War** with the great powers in the background.

They are engaged leading the last 3 years of the **Turning Time cycle** hopelessly into chaos and hatred, death, and destruction to prevent the upliftment of humanity.

This is what was called Armageddon in the ancient scriptures. It is the **final battle for the souls** of the two hierarchies, that are now to be separated in a war, that is to be burned into the hearts and minds of people, based on the old structures of the great state powers and their ideologies and religions. The unholy war has now been started by the dark hierarchy, and it tells you that it cannot do without waging this battle against the states that do not follow its old forms and divisions of power.

For now they have unleashed hatred and revenge to lead you into fear and into their war.

Recognize, there is the message of lets say „History repeating itself“,

It repeats the shadow of the **Atlantian experience** and the turning time - you are now living through - for they were also sunk in a hopeless war at the end of their time.

For the spiritual tide of mind manipulation came then - as it does today - before the earthly tide of bloodshed and mass deaths...

We tell you not listen or follow these dark powers and their wars.

For you could now stir up the **spirit of civil disobedience** against your political leaderships. For only if people so to speak step back is probably that the old power structures of the previous great powers and great religions will collapse.

But you shall also remember the prophecies that heralded the Savior, as in the next earthly years the Redeemer will honorably appear again.

But only at the end of the lets say **time of each individual's decision** as to which beings and paths you will follow, for there are only 2:

For either you follow your heart and your love into unity and withdraw from the orders of the existing state systems and religious manipulations.

Or you follow their call to separate your peoples into good and bad, into friends and enemies, in order to follow the manipulation of the dark hierarchy.

This is the „separation of souls“ that takes place as the two hierarchies move into the Time of Turning of your civilization cycle.

You and your Nations should not allow to be influenced by the old enemy images, but try to understand each other and **find solutions**.

You should recognize that you are one big family, that should now reconcile and unite, in order to lead

Humanity into a **new consciousness of Unity in Diversity**.

The purpose of the **Hierarchy of Light** with this message

is to help you brothers and sisters to become aware and prepared and enforced.

Beloved souls, stand up and share my words with those you love, as they should also know that they can now decide.

There is not much time left, for soon the great and congealing events will happen.

So be courageous and stand up for unity and against the wars.

Blessed are your souls, beloved brothers and sisters on Earth...

Gabriel Metathron
