

MANIFESTO FOR HUMANITY AND ITS COLLECTIVE CONSCIOUSNESS

RECOGNIZE YOURSELF IN THE GLOBAL FAMILY AND
WALK THE PATH OF YOUR COLLECTIVE EXPERIENCES

RECOGNIZE YOURSELF IN THE GLOBAL FAMILY AND WALK THE PATH OF YOUR COLLECTIVE EXPERIENCE

In order to raise the awareness and knowledge level of humanity and to realign it's behavior, for the benefits of all, the **UWM United World Movement** has formed the **World Council** and formulated 7 concrete steps. Don't just read through these steps. Allow each one to unfold within you!

1. COGNITION AND INSIGHT

- The Cognition is that the earth and its bio-spheres are in severe danger and on the verge of collapse, caused by a devastating mixture of cruel exploitation, destruction, greed and ignorance.
- According to scientific models, we will reach the point of no return in 2030, i.e. the world will become irreparable. If we don't manage to change people's consciousness and behavior by then, we can only watch as all life on earth slowly perishes and dies.
Then we will be the last living generation and we will have taken away our children's future.
- It is still possible to prevent this together and implement the necessary solutions.
- This requires a new common and hopeful **Vision for Humanity**.
- And it requires global messages to people that make them aware of the seriousness of the situation and lovingly lead them to insight and to a positive future through self-responsible acting (see **Message for Humanity** and **Message for Unity against War**).
- In order to be able to act together, we also need consenses on the problems, causes and solutions. This also means that all wars and the supply of weapons to them must be stopped immediately.
- In order to develop this consenses, a neutral body was formed, which we call the **World Council** consisting of 12 experts from each of 12 Life realms (144 Independent Visionaries and Problem Solvers).

2. OVERALL VIEW AND SITUATION ANALYSIS

- In order to make these findings and the consenses for the 7 steps solution-oriented and comprehensible, we need an up-to-date overall view and independent situation analyses from all areas of human being.
- In order to recognize and cover them holistically, we differentiate between 13 realms of human existence:
1. Earth & Environment (biospheres), 2. Plants & Forestation, 3. Humans & Animals, 4. Food & Agriculture, 5. Economy & Finance, 6. Infrastructure & Energy, 7. Architecture & Sacred Sites, 8. Education & Culture, 9. Science Present & Future, 10. Society & Law, 11. Media & Communication, 12. History Past & Future, 13. Collective & Individual Consciousness
(This 13th is in the center and increases consciousness in all of the surrounding 12 Life realms).
- Therefore we will include the **Ancient Wisdom Council** (Spiritual Council of Original Nations with 13 representatives) and the **Elohim Council** (Spiritual Council of the Ancestors with 13 representatives).
- The solution-oriented situation analyses in all 13 Life realms are carried out by the corresponding groups, in mutual respect, independent of races, religions and political systems.
- These enable an overall view of the current state in the 13 Life realms and ecosystems, as well as the current Well-being state of humans and animals on all continents.
- The World Council will compile the 13 situation analyses into a holistic overall view and summarize it in a document to make it accessible to all organizations and partners as well as to the people via the Internet.
- The dissemination of this and all subsequent information will be ensured, guaranteed and protected by the **ACC Atlantian Center for Consciousness**, which unites the 3 global councils.

3. STRATEGY AND SOLUTION

- The overall view forms the basis for the strategies and necessary solutions.
- The most effective and fastest solutions and measures are then selected.
- These are tested at the **PCI Pioneer Campus** and the **NGV Next Generation Village** in Switzerland and then adapted and implemented in the **Hubs** on all continents.
- The selected and tested solutions will be brought together in the global strategy.
- It now links and networks all solutions and measures of the individual strategies on 4 levels: Global, Continental, Regional Bio-sphären and Countries/States.
- Then the committee will summarize the global strategies and solutions in one document to make it accessible to all participating organizations and partners as well as to the people via the Internet.
- These should be supported by all people, organizations, companies and states.

4. PLANNING AND COORDINATION

- Planning and coordination now takes place in the 12 Life realm groups at all 4 levels.
- The continent groups then determine the regions, groups and countries into which they are defined.
- This planning is then coordinated with the 12 Life realm groups on all 4 levels.
- The coordination of the 12 areas also takes place in the 4 levels from top to bottom and upwards.
- At the same time, coordination also takes place vertically between the 12 Life realms each of the 4 levels.
- This also involves lovingly overcoming the previous divisions between the people.
- Meanwhile, the solutions are being adapted and coordinated in the 7 continental Hubs.

5. IMPLEMENTATION AND NETWORKING

- After planning, the coordinated implementation now takes place within the 12 Life realms and 4 levels.
- For this purpose, an independent and lean structure will be established. It consists of the 3 global centers of the Spiritual Council, the World Council and the Alliance of States in Switzerland, as well as 7 centers on the continents, with 14 centers in the regions/biosphere and around 195 centers in the countries.
- All countries should adopt and implement these with their national organizations and companies (their previous national transition periods for the climate targets will be lifted and replaced).
- All this should lead through new independent channels of our partners (e.g. THREEFOLD for own internet).
- Equally important will be networking and adaptation between the Life realm groups.
- This includes promoting the unity and harmony of humanity, because we are one big family.
- Meanwhile the solutions will be implemented and networked in the 7 continental Hubs.

6. MONITORING AND EVALUATION

- Ongoing monitoring and evaluation will also be crucial for the implementations and realizations.
- This in turn will be carried out by the Councils of the 12 Life realm groups in the Centers of the 4 levels.
- The support is first provided during the implementation of the solutions in the various areas by the elders of the Original Nations and the experts from the higher levels, who have already successfully implemented these solutions.
- The evaluation and feedback, as well as the exchange of experiences, takes place from the 12 Life realms back from each country to its regional center, from there to its continental center and from there to the 2 supreme Councils. In this way, everyone can contribute their experiences and suggestions and be heard.
- At each level, the positive and negative feedback is reviewed and summarized (if possible, this should be accompanied by proposed solutions).
- Their evaluation and comparisons enable further improvements and reinforcements, which are then disseminated and implemented across all Life realm Groups and Levels.
- This leads Humanity into a culture of conscious living and acting in harmony with nature.

7. ACHIEVEMENT AND CONTINUATION

- These structures are to be planned in 2023/24 and implemented and established in 2025.
- As are the 12 Life realm Groups and the selection of the people who will implement them. The selection will be based on their experience, mindset and professions.
- Meanwhile, the foundations and situation analyses of the 12 Life realms are already being prepared.
- The 12 Realm analyses will follow in 2025 and from them the overall view with strategies and solutions.
- Implementation will begin in 2026 and the turnaround of Humanity should be achieved by the end of 2027.
- This will prevent the point of no return, Mother Earth, Humanity and the Animal world will recover.
- And the new society of unity will lead Humans into the next steps of the new civilization.

MEDIA FOR EXPANDING CONSCIOUSNESS

- This process is to be accompanied and reinforced by consciousness-expanding films and tools.
- The **MESSAGE FOR HUMANITY** and **MESSAGE FOR UNITY AGAINST WAR** where released 12/2023.
- The **7 Steps for HUMAN and his individual consciousness** as well as the **7 Steps for HUMANITY and its collective consciousness** will be published by 12/2024.
- From 2025, the **solutions from the 12 Life realms** will follow with simple basics for application.
- The 3 Films **TRANSFORMATION** and **INITIATION** and **ASCENSION** will follow by end 2025 and 2026.
